

MC  
Doctor  
Connection.com

A black line-art graphic of a stethoscope is integrated into the text. The top part of the stethoscope, including the two earpieces and the top of the chest piece, forms the 'C' in 'MC'. The tubing of the stethoscope loops around the right side of the word 'Doctor' and ends at the dot of the 'i' in 'Connection.com'.

Electronic >> Health Records

The central focus of the diagram is a desktop computer monitor displaying a comprehensive Electronic Health Records (EHR) interface. The interface includes a patient's profile, a list of medical conditions, and a grid of data. To the left of the monitor are five circular icons, each connected to the EHR interface by a thin white line. These icons represent various medical concepts: a microscope, a stethoscope, a pill bottle, a group of people, and a DNA helix. The text 'Electronic >> Health Records' is positioned above the monitor.

# What can we do to serve you???

- **Manage your top 5%**
- **Intervene before health events escalate**
- **Reduce needless Doctor visits, Emergency Department visits and Hospitalizations**
- **Deploy predictive modeling**
- **Live Recordable visits from the patients home with family members around the country**
- **Help self funded employers deploy at no cost to them or employee– tax savings to employer– average \$200 per employee**
